POSTCARDS
PUBLICATIONS

DIGITAL PRINTING

Print Group Inc.'s digital printing department has the capability of both four-color printing or single color black with optional variable data printing. Digital printing provides a cost-effective method for printing smaller quantity projects. Many of our customers use the variable-data option for personalized mailing campaigns, and the options are endless.

POSTERS

A vibrant underwater scene with various colorful fish and coral reefs. The background is a deep blue ocean with sunlight filtering through. In the foreground, there are several types of coral, including branching and table corals, in shades of orange, pink, and purple. Numerous fish of different species and colors are swimming around, including a large yellow and black fish, a purple and yellow fish, a striped fish, and a large sea turtle on the right side.

FLEXOGRAPHIC LABEL PRINTING

Our Flexographic printing press allows us the versatility of conventional printing or digital printing. This allows for short and long runs of roll labels, tags, sheeted labels, and thermal transfer labels.
